

BS Certified Partner Program

The Concept

The BS Certified Partner Program addresses marketing agencies and content creators, that got expertise within the 3D and multimedia branch. The goal is to expand the existing network of qualified content partners of Bitmanagement - who work with the BS technology - in order to be able to forward content inquiries and respectivel deals of BS customers e.g. from the automobile or multimedia industry to worldwide partners, with suitable know-how, the relevant experience and a competetive price/service relation.

The Partner

"With the software of Bitmanagement we could successfully realize large multimedia projects from us like the Sazka Arena on the Internet. As Emmy Award winner we had large experience within the range of the postprocessing of DVDs. However the cooperation with Bitmanagement as content partner for the Czech Republic made it possible, that we could participate in recent online oriented bids."

Libor Cerny, Digital Media Production, a.s., Prague, Czech Republic

The Offer

- o 30 % discount on project-related licenses
- o forwarding of suitable leads
- o provision of marketing material
- o 3rd level support
- o involvement into the product development

The partner brings in its expertise within the relevant 3D/Multimedia area, acquires the BS SDK and is suited as subcontractor due to a common project expierence.

The Benefit

For the final customer an integrated solution can be offered, which uses world-wide resources and the specific know-how of the partners. An intergration of partners in inquiry and order network is valuable as well as the reduced royalties for licenses in partner projects.

The presentation on the BS Website or in the BS BusinessLetter brings publicity and - according to the partners - direct inquiries.

Fot Further information to the BS Certified Partner Program please contact sales@bitmanagement.com or tel. 0049 (0)8151 971708.
